## Chronic drugs are used to treat complex conditions

Chronic drugs are prescription medications that require special handling, administration or monitoring. These drugs treat complex and chronic conditions, including:

- Cancer
- Rheumatoid Arthritis / Crohn's
- Multiple sclerosis
- Viral Hepatitis
- HIV
- Growth Hormone

## Decillion makes it easy to fill chronic drug prescriptions

Chronic drugs require much more clinical and patient assistance focus to appropriately dispense. We have 24/7 coverage at Decillion to speak with a live person who will make this process as easy as possible for both the physician and patient. Call Decillion in advance to verify that we can fill your prescription.

Decillion Healthcare clinically manages our patients through our Clinical Management Team (CMT). Every CMT has an assigned disease specialist, Patient Care Advocate (PCA) who provides you with chronic mail order services; disease specific and support programs.

If you have questions about Decillion Healthcare and our specialty drug program, please call us at 1-800-622-9321 or visit the website at [www.DecillionHealthcare.com](http://www.DecillionHealthcare.com).

## Ordering chronic medication is easy

You can order your chronic drugs through Decillion Healthcare and they'll arrive right at your home. Just have your doctor fax your chronic medication prescription to Decillion Healthcare at 1-614-367-1684.

## Chronic Services You Can Expect

Personal attention from a PCA who will do all of the following:

- Discuss the best way for you to take your medicine
- Explain possible side effects
- Help you understand your condition
- Call to remind you when you need a refill

Ancillary supplies, if they're appropriate to administer your medication, are free with each new order and then as needed if you request them. These include syringes, alcohol swabs and sharps containers.

Dedicated customer service staff is available Monday through Sunday at 1-800-622-9321. Emergency clinical support is available 24 hours a day, seven days a week also. We service Ohio and have specialized delivery services in place to get medications to a patient and/or physician office within 4 hours.

## Limited Distribution Chronic Drugs

Some manufacturers limit the distribution of chronic drugs. These drugs (noted on the chronic drug list) are only available through designated pharmacies.

Decillion Healthcare have been able to secure access to these drugs through our various distributors, GPO's and direct Manufacturer relationships.

## Decillion Healthcare's Chronic Drug List

Decillion has compiled one of the largest, most comprehensive patient assistant programs libraries to enhance our ability to get our patient's the lowest out of pocket costs. Chronic drugs are high cost, complex and require special knowledge to dispense correctly. Decillion will thoroughly review each patient's full drug profile for any contraindicated medications, allergies and follow any patient side effects. For the most up-to-date list, please see Decillion's Specialty Drug List on [DecillionHealthcare.com](http://DecillionHealthcare.com) or call 1-800-622-9321.
